

I alle faconer og dimensioner

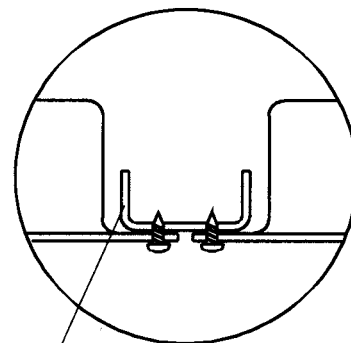

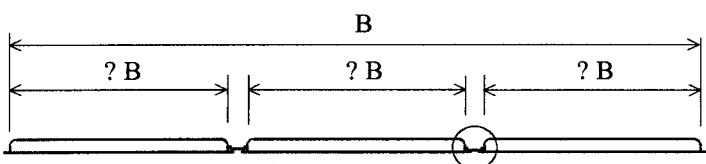

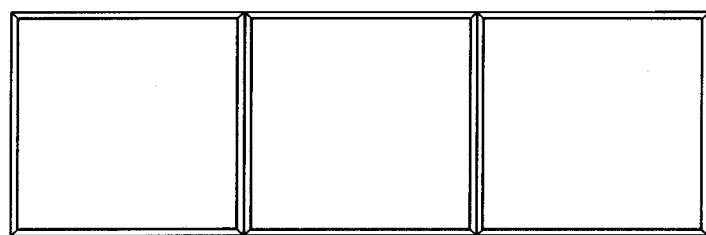

Vi producerer riste på mål i ønsket facon  
Kort leveringstid – ring for mere information

# Sammenbygning til større enheder

Type: V - VV - HV - F - FV - U - I - IP

Til sammenbygning af riste og ventiler i bredde eller højdemål kan klimatek levere forberede U-samleskinner

U-profil / 4kt rør / T-profil

## Udregningseksempler:

Type V - VV - HV - F - FV

Bredde = 7000 mm

Deles i 3 enheder

$7000 - (2 \times 47) = 6906 \text{ mm}$

$$\frac{6906}{3} = 2302$$

? b = 2302 mm

Type U - I

Bredde = 2100 mm

Deles i 3 enheder

$2100 - (2 \times 42) = 2016 \text{ mm}$

$$\frac{2016}{3} = 672$$

? b = 672 mm

Type UP - IP

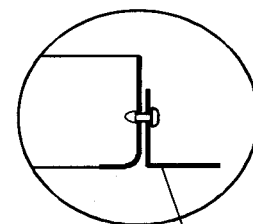

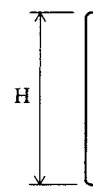

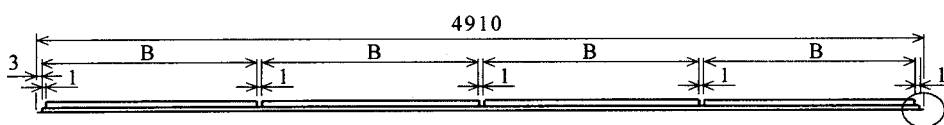

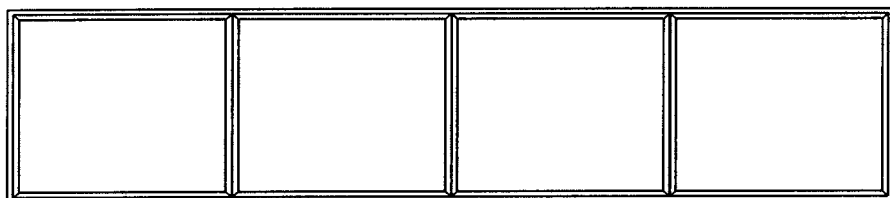

Bredde = 2100 mm

Deles i 3 enheder

$2100 - (2 \times 31) = 2038 \text{ mm}$

$$\frac{2038}{3} = 67,33$$

? b = 679 mm

V-profil 20 x 30 x 3

Type VK sammenbygget i fælles ramme

Bredde = 4910 mm

Deles i 4 enheder

$4910 - ((5 \times 1) + (2 \times 3)) = 4899 \text{ mm}$

$$\frac{4899}{3} = 1224,75$$

? b = 1226 mm
